

Wings

Hurts

When you find me free-falling
Out of the sky
And I'm spiralling out of control
When I drop like a cannonball
From cloud nine
Just promise, you won't let me go
Say you'll catch me when I fall
Wrap your wings around my body
When I'm lost in the storm
And I'm calling
Wrap your wings around my body
Wrap your wings around my body
Wrap your wings
Wrap your wings
Wrap your wings around my body
Oh, oh, oh, oh Oh, oh, oh, oh When we stood on the skyline
There was no turning back
And you said not to stare at the ground
But there's a hole in my parachute
As big as your heart
And the gravity is pulling me down
Will you catch me when I fall
Wrap your wings around my body
When I'm lost in the storm
And I'm calling
Wrap your wings around my body
Wrap your wings around my body
Wrap your wings Wrap your wings Wrap your wings around my body oh, oh, oh, oh Oh, oh, oh, oh
We're flying above the valley below
We're flying above the valley below
We're flying above the valley below
We're flying above the valley below
Wrap your wings around my body
Wrap your wings around my body
Wrap your wings
Wrap your wings
Wrap your wings around my body
Wrap your wings around my body
Wrap your wings around my broken body
