Makin Luv

Dru Hill

Verse
Girl you go me thinking bout your love
So many things i wanna say to you
So much pressure sticking out of me
Its coming out of me, and i need to be inside
(Need to be inside of you)
Wont you come and ride
Cant wait any longer, the feelings getting stronger
Its stronger im bout to explode
Chorus x2
We should be making love
We should be making love
Until we've both had enough
We should be making love
Verse 2
Im going crazy
Because im thinking bout that vicki secrets on
The other day, when you came by my way
I wanted you to stay

I wanted to stop you at the top
Pull those panties down, Your hand on the wall
And bend you over
And baby when i put it in your never gonna want me to stop
Chorus x2
We should be making love
We should be making love
Until we've both had enough
We should be making love
Bridge
Sweat dripping in an out
Round and round
Up and down
Breathing out
I said fast or slow
Chorus x2
We should be making love
We should be making love
Until we've had enough

We should be making love
