Right On Time for Nothing

Falling Sickness

out of focus
low on hope
am I out of my mind?
can you help me?
out of answers
ran out of reasons
am I making any sense?
can you help me?
so proud to be better
we fight to be right
no time to give comfort
to someone in need crying for a better world
gotta save the world with hair dye
and patches in all the right places
well rehearsed slogans are a must
is that what's called difference?
low in spirit
high on dope
am I out of my mind?
can you help me?
lost my meaning
in consuming people
am I making any sense?
can you help me?
so proud to be better
we fight to be right
no time to give comfort
to someone in need crying for a better world
gotta save the world with hair dye
and patches in all the right places
well rehearsed slogans are a must
is that what's called difference?
right on time for nothing
when did basic feelings turn to appearance
when did basic feelings turn to acceptance
what's your conviction?
