

# Knights Of Bostonia

## State Radio

Caught the Sun down at castle island  
Summer's spinnin its finest gold  
They were selling and we were buying  
Just looking for someone to hold  
I know the feeling of a fight I never saw you blink  
We been up against the crab apples slingshot sting  
I got my trash can lid on my wing  
Were the knights of the round table oh  
I was working on the strait and narrow  
You came at me like a cannon ball  
I saw you sleeping at the city stables  
You made me feel on a ten feet tall  
Their coming for the  
Coming for the rules and the cops and the cold and all  
All together and together we fall through the cracks of the city street  
Ya through the cracks of the city street  
Thats right sit straight and listen up  
We are the knights of bostonia  
We, we tell the court you tell the king  
We aint listen to you no more  
We are the knights of bostonia  
Only you can set you free  
I would follow you out of the city  
Up Dot Ave to Savin hill  
Dock man says the waters gonna kill me  
Better that than sittin still

Their coming for the  
Coming for the rules and the cops and the cold and all  
All together and together we fall through the cracks of the city street  
Ya through the cracks of the city street  
Thats right sit straight and listen up  
We are the knights of bostonia  
We, we tell the court you tell the king  
We aint listen to you no more  
We are the knights of bostonia  
Only you can set you free  
Another fit Another fight I never saw you blink  
Weaving up against the crab apples slingshot sting

I got my trash can lid on my wing  
Were the knights of the round table are  
And well fight the coming fall  
So sit strait and listen up  
We are the knights of bostonia  
We, we tell the court you tell the king  
We aint listen to you no more  
We are the knights of bostonia  
Only you can set you free  
Restless nights, the innocents scream.  
A Fist to fight and the summer of keep  
We are the knights of the junk yard raid  
A trusty steed and a summer to save  
We are the knights of bostonia  
Together we are the knights of bostonia  
Together we are the knights of bostonia  
Together we are the knights of bostonia
