

Voodoo Child

[Maxx](#)

Voodoo child Zoom zoom digidigi zoom
Zoom zoom digidigi zoom
Zoom In the darknes of the night, a child cries
She is voodoo but she speaks as she dies
She said "Mummy don't you cry, please don't cry"
Oh oh voodoo spirits take me to the sky If you need me call my name I'll be there
And when children are in pain I'll care
It's the mystery in voodoo style
We will never forget voodoo child
