

George's Helper

Pete Murray

People

This is what I say tonight

Messed up

After that I'm much too bright You all just sit here smiling and I

Cannot control myself when I know I'm right

Oh, and I can't help you tonight Here it comes

Falling down on your face

Sometimes I just feel you're out of place Hey, George

I think I can help you now

Remember

You brought this upon yourself You all just sit here smiling and I

Cannot control myself when I know I'm right

Oh, and I can't help you tonight Here it comes

Falling down on your face

Sometimes I just feel you're out of place

You always end up with egg on your face You all just sit here smiling, hey

You all just sit here smiling, hey

You all just sit here smiling, hey

You all just sit here smiling Hey, George

I think I can help you now
