

Still Water

Joe Bonamassa

Sad eyes, sad eyes
Where're you going with that confidence?
Sad eyes, sad eyes
Where're you going with that confidence? I'm going to where the boats go by
Caledonia river flows so wide
I'm going to where the boats go by
Caledonia river flows so wide Still water laying over
Still water lying over
Still water laying over
Caledonia river oh, so wide Wild eyes in the wilderness
Where're you going with the devil in hand?
Wild eyes in the wilderness, oh darlin'
Where're you going with the devil in hand? I'm going to build the bridges high
For working money, for working money
I'm going to climb the bridges high
Caledonia river oh so wide Still water laying over
Still water laying over
Still water laying over
Caledonia river far so wide Sad eyes in the weary night
Have you seen your brother?
Have you seen your brother?
Waiting by the river so high
Caledonia river oh, so wide Going to where the rain falls
Look for my brother, look for my brother
Going to where the rain falls
Caledonia river far away Still water laying over
Still water laying over
Still water laying over
Caledonia river far away
