

World Town

M.I.A.

Sick of all the sh't that's keeping me down
If you're dead from the waist down, it's easy staying ' down
I never thought about it twice but you do pay a price
It ain't your weekly cash that feeds my mum the riceIt's you, don't be calling me desperate
When I'm knockin' on the door
Every wall you build I'll knock it down to the floorSee me, see me bubblin' quietly
See me, see me actin' like you ain't met me
See me, see me bubblin' quietly
See me, see me actin' like you ain't met me, see me, see meHands up, guns out
Represent the world town
Hands up, guns out
Represent the world townHands up, guns out
Represent the world town
Hands up, guns out
Represent the world townRepresent the world town
Represent the world town
Represent the world town
Represent the world townLook at what you've done, you done it before
Every little dollar just keeps me down more
I never had you on my side, bubblin' on my side
Why they tell me different when they make me explodifiedAnd yo, don't be callin' me desperate
When I'm knockin' on the door
Every wall you build I'll knock it down to the floorSee me, see me bubblin' quietly
See me, see me actin' like you ain't met me
See me, see me bubblin' quietly
See me, see me actin' like you ain't met meHands up, guns out
Represent the world town
Hands up, guns out
Represent the world townHands up, guns out
Represent the world town
Hands up, guns out
Represent the world townRepresent the world town
Represent the world town
Represent the world town
Represent the world townHands up, guns out
Represent the world town
Hands up, guns out
Represent the world townHands up, guns out
Represent the world town

Hands up, guns out
Represent the world townRepresent the world town
Represent the world town
Represent the world town
Represent the world town
