

# Sweet

## Johnny Douglas

Stars in the sky bird on the wing  
You and i have got a song to sing.  
About how life is good and hearts are free  
You take the night and ya, you make it sweet oh yeah, you make it sweet oh yeah, you make it sweet.

A little rains bound to fall  
Times of trouble gonna find us all.  
Maybe Blue turns to grey  
A smile can chase the clouds away.

It's a long road but i know  
We're gonna make it.  
Stars in the sky bird on the wing  
You and i have got a song to sing.  
About how life is good and hearts are free  
You take the night and ya, you make it sweet oh yeah, you make it sweet oh yeah, you make it sweet oh yeah  
you make it sweet

It's a long road but i know  
We're gonna make it.  
Stars in the sky bird on the wing  
You and i have got everything.  
life is good when its you and me  
You take the night and ya, you make it sweet oh yeah, you make it sweet oh yeah, you make it sweet oh yeah,  
you make it sweet.
