

Madness (It's All in the Mind)

Madness

Could it be someone's telling lies
Or could it be that I'm getting wise
Awoke myself from a nose-dive glide
I caught myself but you've lost all pride
I'm not going with you
Won't you come on with me ?
See your world in a drift fly past
So good the feeling you want to last
I'm not going with you
Would you come on with me ?
I'm not here to watch day and night
Or to hear you drift out of life
If I could wake you
A moment I would
Share you my lifeline
Feed you some good
If I could wake you
A moment I would
Share you my lifeline
Feed you some (good)
I'm worried for you
But you not for me
When everyone's living
I know where you'll be
If I should listen to your proposal
Put my future at your disposal
Promise me you'll keep yourself clean
Cut yourself from your mid-day dream.
If I could wake you
A moment I would
Share you my lifeline
Feed you some good
If I could wake you
A moment I would
Share you my lifeline and
Feed you some good
