

News From the Front

Bad Religion

Blood is a river,
Flowing darkly amidst the tangled roots of the tall shining city
Crazy flowing mantide migrations
Engorge the big ventricle of heartbroken America
So many heaven hoping, hopeful groping breathers
All tap together quietly and desperately in unison
Hey, hey, hey, is anybody listening? News from the front
News from the front
We're living in troubled times
So many fighting for their lives
Why do the troops despise the news from the front? Ignorance is the root of fear
Fear is the kindling of anger
War is the bringer of shame
But never has the burden lain so heavily upon the victim
Rage and desolation
Pain and loneliness
Isn't it all alarmingly familiar?
Hey, hey, hey, silence is a killer. News from the front
News from the front
Yeah these are troubled times
How many more will have to die
Before the governors can't deny the news from the front? Break down the barriers, ally the carriers,
What is your motivation? Take a good look in the mirror News from the front
News from the front
So many are fighting for their lives
How many more will have to die?
Why does the government decry the news from the front?
