Mercy

Mr. Little Jeans

Kindness
If it's the easy way then
Take it away from meSilent
You cause the wind caught on
Do save your apologiesCorrode into collide
Collide and don't look back
I told you and I tried
Severed learn to fight backNo longer quietly shady
Lo longer sneaking late at night
A silhouette of a lady
Tailor-made tales into the lightHead down don't look around you
You've got too many enemiesHome bound
Beginner's luck ran out
One reason you're on your kneesWon't tell them what I know
Won't tell them what I saw
Got no more bricks to throw
Take or leave them make the callCorrode into collide
Collide and don't look back
I told you and I tried
Severed learn to fight backRound round and round
Broken back from the fall
Ring ring go the sound
Back against every wallQuiet before the storm
Cover as good as goneCorrode into collide
Collide and don't look back
I told you and I tried
Severed learn to fight back(Your hands are tied)
