

# The Way to Wonder

## Kyle Andrews

This is the new amazing  
This is the world we wanted  
This is the life we dreamed of,  
This is me and youThis is the trip we're taking  
This is the road we're on  
These are the plans we're making  
This is me and youFinding that spot with the view of everything  
Climb up to the top, in the blue, we are feeling free  
This is the way to wonderThese are the stars we wish on  
These are the words we say  
This is the chance we're taking,  
This is me and you  
This is the ground we walk on  
This is where we stand  
These are the friends we lean on  
This is me and youFinding that spot with the view of everything  
Climb up to the top, in the blue, we are feeling free  
This is the way to wonderThis is the new amazing  
This is the trip we're on  
This is the chance we're taking  
This is me and youThis is the night we're chasing  
This is the sound of love  
This is laugh we're making  
This is me and you  
Finding that spot with the view of everything  
Climb up to the top, in the blue, we are feeling free  
This is the way to  
Finding that sá<sup>1</sup>—ot with the view of everything  
Climb up to the top, in the blue, we are feeling free  
This is the way to wonder  
This is the way to wonderThis is the new amazing  
This is the trip we're on  
This is the new amazing  
This is the road to wonderThis is the new amazing  
This is the trip we're on  
This is the new amazing  
This is the new amazing  
This is the road to wonder
