

City Walls

Alberta Cross

Well all people hanging around
well all people ghoul-ing around
We were city ghosts
we just follow
cause we are just people

Yeah city walls are growing
How will I find my way out
We were wasted lives in the city
Where a million people stole my way

Where have we gone
Im staying around
Where have you gone
Im sticking around
Im going inbound
inside the city walls
inbound inside the city walls
its getting kinda mystic
Going inbound

Yeah city walls are growing
How will I find my way out
We were wasted lives in the city
Where a million of people stole my way

Yeah city walls are growing
How will I find my way out
We were wasted lives in the city
Where a million of people stole my way
