Mediterranea

Fedo Mora

Across the sky a jet trail following
The wish that I was on that plane
On my way to some far destination
Undiscovered never mentioned
Sipping on the high of expectation
I awaken to the shade
Maybe it's a rained out town
One you wanna leave behind
When the winter's on the ground
If you ever wonder
We believe in the cold
Gray light we dream
There's a place for us
Mediterranea
Yes, we believe where
The white sands touch the sea
There's a space for us
Mediterranea
I'm trading air for touch down ecstasy
Arriving there in a wave of heat
Nine a.m., the beach tequila mayhem
Sum of all suburban daydreams
Waiting for a look, the invitation
I awaken to the shade
Maybe it's a rained out town
One you wanna leave behind
When the winter's on the ground
If you ever wonder
We believe in the cold
Gray light we dream
There's a place for us
Mediterranea
Yes, we believe where
The white sands touch the sea
There's a space for us
Mediterranea
Oh imagine, summer fashion
See yourself in a no hope town
Let the sunshine out of your mind

A bed of light to lay you down
We believe in the cold
Gray light we dream
There's a place for us
Mediterranea
Yes, we believe where
The white sands touch the sea
There's a space for us
Mediterranea
And we believe
Yes, we believe
There's a place for us
Mediterranea
