

No Love (Acoustic At Energy FM)

Simple Plan

Staring out at the world across the street
You hate the way your life turned out to be
He's pulling up
In the driveway
And you don't make a sound
Cause you always learned to hold
The things you want to say
You're always gonna be afraid
There's only hate
There's only tears
There's only pain
There is no love here
So what will you do?
There's only lies
There's only fear
There's only pain
There is no love here
What will you do? Broken down like a mirror smashes to pieces
You learned the hard way
To shut your mouth and smile
If these walls could talk,
They would have so much to say
Cause every time you fight,
The scars are gonna heal
But they're never gonna go away
There's only hate
There's only tears
There's only pain
There is no love here
So what will you do?
There's only lies
There's only fear
There's only pain
There is no love here
What will you do? You're falling
You're screaming
You're stuck in the same old nightmare
He's lying
You're crying
There's nothing left to salvage
Kick the door cause this is over

Get me out of here There's only hate

There's only tears

There's only pain

There is no love here

So what will you do?

There's only lies

There's only fear

There's only pain

There is no love here

What will you do? There's only hate

There's only tears

There's only pain

There is no love here
