What Will I Do

Clannad

There I go saying the same old things
Something to rhyme or to cling to
When times were tough, I didn't say enough
Like some sweet lines to say to you, relate to youChorus:
What will I do without you?
What will I do? Heaven knows
What will I do without you?
What will I do?We watch the seasons come and go
Leaves are falling as water flows
We took for granted the love that's wanted
A leaning shoulder to cry on(Chorus)I don't know, I don't knowEvery day my heart will stray
And dream of the memories we left behind
Love is a reason, a reason to live
So don't let it slip away(Chorus)What will I do without you?
What will I do?
I don't know, I don't know
