It's Not Over

Stellar Kart

I remember all those nights,
your voice would shake from the tears you cried,
whats the meaning of this life?Guilt can bring you to your knees.
You cant escape the memories.
When shame is all you feel inside.Dont look back
leave whats broken in the past,
take my hand, and understand,its not over,
the best has yet to come for us,
come for us.
Night has faded,
a brand new day has come for us,
come for us.A million miles from where we've been
hopes the road that has no end
You pray to God that we would make it through
Forgiveness always finds a way
of letting love replace the pain
Just take a look at me and youDont give up
We've only just begun
i believe, i believeits not over
the best has yet to come for us,
come for us
night has faded
a brand new day has come for us
come for usits not over
the best has yet to come for us
come for usits not over
the best has yet to come for us
come for us
night has faded
a brand new day has come for us
come for usits not over
