All Night Long

Lasgo

Baby, lay it on the line
If I am on your mind
Baby, do you like romance
If you care for me, you better take this chance
Baby, I played my last card
So please don't break my heart
Baby, time is running out
If you want me too, then you just give a shout
I wanna make love with you
All night, all night long
I wanna make love with you
All night long
Baby, I am on my knees
Be mine, I'm begging you please
Baby, it's decision time
Got to know right now, there's nowhere you can hide
I wanna make love with you
All night
I wanna make love with you
All night
I wanna make love with you
All night, all night long
I wanna make love with you
All night long
