

All Night Long

Lasgo

Baby, lay it on the line
If I am on your mind
Baby, do you like romance
If you care for me, you better take this chance
 Baby, I played my last card
 So please don't break my heart
 Baby, time is running out
If you want me too, then you just give a shout
 I wanna make love with you
 All night, all night long
 I wanna make love with you
 All night long
 Baby, I am on my knees
Be mine, I'm begging you please
 Baby, it's decision time
Got to know right now, there's nowhere you can hide
 I wanna make love with you
 All night
 I wanna make love with you
 All night
 I wanna make love with you
 All night long
 I wanna make love with you
 All night long
