Starchild

Inkubus Sukkubus

Starchild, on a mission of love
Starchild, fallen from the skies above
Lost forever in a dream
In a mescaline time machine
Starchild, in the danger zone
Starchild, now she's all alone
Lost forever in a dream
In a mescaline time machine
Here she comes, burning like a supernova
Here she comes again
Starchild
Starchild, in the summer sky
Starchild, drinking of the poppy wine
Never ageing, never dying
Always laughing, never crying
Starchild, on the astral plane
Starchild, in a dream once again
Never ageing, never dying
Always laughing, never crying
