Hard To Hold (feat. Tegan and Sara)

RAC

I've got to liberate first
The list of fiction
My mouth has made first
Eliminate the distance between usI've got to implicate first
The list of lies
My mind has made first
Eliminate the distance between usTruth be told
You're hard to hold
You've gotta want it
You've gotta want it right nowTruth be told
You're hard to hold
You've gotta want it
You've gotta want it right nowIf you don't want me
Baby, you don't deserve me
You've got to want it right nowIf you don't want me
Baby, you don't deserve me
I've got to want it right nowYou've got to cooperate first
List the wounds
That caused me pain first
Eliminate the distance between usYou've got to illustrate first
List the damage
That caused me pain first
Eliminate the distance between usTruth be told
You're hard to hold
You've gotta want it
You've gotta want it right nowTruth be told
You're hard to hold
You've gotta want it
You've gotta want it right nowIf you don't want me
Baby, you don't deserve me
You've got to want it right nowIf you don't want me
Baby, you don't deserve me
I've got to want it right nowIf you don't want me
Baby, you don't deserve me
You've got to want it right nowIf you don't want me
Baby, you don't deserve me
I've got to want it right nowI can feel the difference
That a little distance
In between us starts to showI can tell what you want

If you really want to know
I can take you to the top
If you really want to goIf you just say yes
If you stop saying no
If you just attest
That you want me soI can feel the difference
That a little distance
In between us starts to showI can tell what you want
If you really want to know
I can take you to the top
If you really want to goIf you just say yes
If you stop saying no
If you just attest
That you want me soIf you don't want me
Baby, you don't deserve me
You've got to want it right nowIf you don't want me
Baby, you don't deserve me
I've got to want it right nowIf you don't want me
Baby, you don't deserve me
You've got to want it right nowIf you don't want me
Baby, you don't deserve me
I've got to want it right now
