

# Sad Song

## Au Revoir Simone

Play me a sad song.  
'Cause that's what I wanna hear.  
I want you to make me cry.  
I wanna remember the places that we left  
Lost to the mists of time.I know that you'll go soon.  
You'll find out so take me with you, always.  
I know that you'll go soon.  
You'll find out so take me with you, always.On the buses, that move through the night.  
We sleep on and on  
We got off at Memphis,  
Black top heat will make us thirsty.  
We'll never get sick anymore.I know that you'll go soon.  
You'll find out so take me with you, always.  
I know that you'll go soon.  
You'll find out so take me with you, always.
