Drag Ropes (Demo) [Bonus Track]

Storm Corrosion

Now my dear friend
Now for your sins
You're to suffer
Here it beginsDrag ropes forth ward
Shame will save you
How can you say no ?
Turn of the screwGallows feel
Dawn's relief
Hood to blind you
Be at peaceI was mortal but I am your friend
To stay and fear beside you
Always here (I know)
I'm always with you nowAnd the truth can now be told on manifold
And the truth can now be told on manifoldNow my dear friend
Now for your sins
You're to suffer
Here it beginsI was mortal but I am your friend
To stay and fear beside you
Always here (I pray for you)
I'm always with you now
