

# Set Me In Motion (Remastered 2003)

[Bruce Hornsby](#)

Sit there with a blank expression  
Say you can't go on anymore  
It's not like me to come out and help you  
Maybe I've been down this road before  
Been living in the shadows  
Now you come out slow  
Now you're in the saddle  
Got to ride a long  
Now you're dream was shattered  
These days are through  
Maybe something mattered  
It's not just for you  
Some are gonna go for broke  
Some are gonna lay down  
I've been too long standing still  
All I know is whenever you need me  
You reach out and set me in motion  
Looking out on that long valley  
Telling me I've come so far  
You're the reason I finally got there  
You're the reason it's been so hard  
Been living in the shadows  
Now you hear the call  
Now you're in the saddle  
You got to ride or fall  
Now you push a little harder  
Like I showed you to  
There's a day you'll be calling  
And I'll look you to you  
Some are gonna go for broke  
Some will lay down  
I've been too long  
Standing still  
All I know is whenever you need me ( 2nd rep-I'll pick you up whenever you stumble)  
You just reach out and set me in motion
