

# 3 Days Later

## De La Soul

Smoothed out without the R and B  
Mercy, come on  
Mercy, come on y'all  
Mercy, come on  
There's no R and B in this song  
So come along fly children, come along  
Come along, fly children, come along  
Come along, fly children, come along  
There's no R and B in this song  
Pushed up a dame by the name of Crystal  
Who flaunts to the point just like a missile  
A habit wit ear kiddin' wit gold mags  
And since she fancies facial hair, she asks my name  
(Hey baby, what's your name?)  
Now ever so fab, I said I'm wala  
Miss Wild who used to run tough wit Koala  
She was a winner of my metaphor and she knew that  
I said I'm gonna feed your mouth, she said you do that  
The Crystal stops the jeep, I think I'm mad fly  
She used to have a man wit lots of mad signs  
Her strut was guaranteed to make a gay smile  
And in bed she had proved to be real agile  
I show her to the lounge and I dined her  
Then she gave me some digits where I could find her  
I licked her like a stamp, laid and sticked her like a champ  
But she gave me burn, I had to go see the doctor  
3 days later, skeezer, skeezer, skeezer  
3 days later, skeezer, skeezer, skeezer  
3 days later, skeezer, skeezer, skeezer  
  
3 days later, skeezer, skeezer, skeezer  
Well, it was thirty after nine and I was loungin'  
Token' on some smoke that I was poundin'  
I rang up seven up, so we can skip to the mall  
Thinkin' a good day to shop but then we got stopped  
A shooter man said, "Yo, this is a stick up"  
A whole lot of dirt was 'bout to kick up  
I had screens in my pocket and man, tonight's my date  
Wit Smokey Sue, now what was I to do?

In my head I'm thinking, ?Should I dodge the bullet??

?Man, this kid is bluffin', you can pull it?

I feared the whole scene, the shooter didn't bluff

Now look at me now, he shot my ass dead

You shouldn't have

I did, so let's get in the van

You shouldn't have

I did, so get in the fucking van

I love you babe

I, I love you babe

I love you babe

I love you babe

Skeezer, skeezer, skeezer

(I love you babe)

Skeezer, skeezer, skeezer

(I love you babe)

Skeezer, skeezer, skeezer

(I love you babe)

Skeezer, skeezer, skeezer
