

# Hold Tight

## Death Proof

Hold tight  
I wanna dance with you this whole night  
I hope the music never slows up  
I hope this place don't never close upHold tight  
'Cause you're the only one who feels right  
Girl, I know it's now or never  
I wanna dance with you foreverSo hold on tight, never let me go, baby  
'Cause I can feel the rhythm of your love  
And when you get yourself in motion  
Girl, it's tearin' my emotions right in twoHold tight  
And we will dance into the moonlight  
All the stars, they will surround us  
We will be so glad we found usSo hold on tight, never let me go, baby  
'Cause I can feel the rhythm of your love  
And when you get yourself in motion  
I get lovin' notions all for you, yes, I doHold tight  
And we will dance into the moonlight  
I hope the music never slows up  
I hope tomorrow never shows up
