Let It Ride (Jimpster Remix)

Lisa Shaw

So clear...
So clear, to me

Took so long
to find out
all the things that happened all around you

thought you
could see
even though
it was clear to me

tomorrow's a new day
free from all the things that you didn't say
better things
coming
learn to let it go sometimes

so clear...

hopeful
you seem
you want to put it all behind
missing
something
searching for the strength inside
finding
a new way
i am here to show you my way
better things
coming
so learn to let it go sometimes

when it all comes down
let it ride
when it all comes down
let it ride
when it all comes down
let it ride
when it all comes down

let it ride

so clear...

(vamp 8 bars)

hopeful
you seem
you want to put it all behind
missing
something
searching for the strength inside
finding
a new way
i am here to show you
my way
better things
coming
so learn to let it go sometimes

when it all comes down
let it ride
when it all comes down
let it ride
when it all comes down
let it ride
when it all comes down
let it ride

so clear...
so clear
