

Spin

We the Kings

I got a feeling to stay
It beats the feeling to go
I got a feeling I'll wait
So I can know
What really could have been
Much more than time well spent
I got a feeling that I can't let this end

So let's make champagne
Rain down from the sky

And let's toast to the night
It's the time of our lives
Take me for a ride
And kiss me one more time
'Cause even if we fall, we'll be okay
Grab hold of your heart
Let's spin the world from the light
So we stay here the night

Can we stay here tonight?
Let's spin the world from the light
Can we stay here tonight?
Let's spin the world from the light

You got a reason to stay
I got the hand you can hold
I'm kind of feeling insane
So don't let go
And as the sun goes down
And all the dark surrounds
I get the feeling we can't run home
Not now

So let's make champagne
Rain down from the sky

And let's toast to the night
It's the time of our lives
Take me for a ride

And kiss me one more time
'Cause even if we fall, we'll be okay
Grab hold of your heart
Let's spin the world from the light
So we stay here the night

Can we stay here tonight?
Let's spin the world from the light
Can we stay here tonight?
Let's spin the world from the light

Don't wait
Everything's not okay
I am slipping away
Don't say goodbye
Kiss me and let me know
You love me
Underneath the moonlight
We'll look to the sky

And let's toast to the night
It's the time of our lives
Take me for a ride
And kiss me one more time
'Cause even if we fall, we'll be okay
Grab hold of your heart
Let's spin the world from the light

And let's toast to the night
It's the time of our lives
Take me for a ride
And kiss me one more time
'Cause even if we fall, we'll be okay
Grab hold of your heart
Let's spin the world from the light
So we stay here the night

Can we stay here tonight?
Let's spin the world from the light
Can we stay here tonight?
Let's spin the world from the light
