

Lucky Lucy

Tailor

As the train comes riding in the smoke evaporates in the morning sky
We knew this day would come
the day we would be saying goodbye and not ask why
88 years is a long time when you've been waiting here, patiently
Oh now heaven loves you more,
Oh now heaven loves you more!

Lucky Lucy you meant the world to me
Lucky Lucy why can't you hear me anymore
You felt my cry you heard my call you would never let me go
Lucky Lucy now heaven loves you more

As the sky turns grey I find peace and hope in forever, 3 days in and I'm already I'm already heart broken this
my endless summer
Oh now heaven loves you more Oh now heaven loves you more!

Chorus:

As the sky turns grey I find peace and hope in forever
88 years is a long time when you've been waiting here patiently
Now I solute you!
