

# Spin the Wheel

## Robbie Stewart

(First Verse):

Tonight painted horses gallop down the highways  
To arrive at what now mama... Whoâ€™s to say  
Stone cold cities, not much on Pity  
The bump and grind, you know, can drive the average boy insane

(Coda):

To-nights abduction  
The bright lights, seduction  
The white lines on those highways  
Takes us further away each day  
As the carnival lights fade away  
Itâ€™s just a country mile away

(Chorus 1):

As we live our lifes in stages  
Playing a part in a world unknown  
So let it roll on the minimum wager, girl  
Spin the wheel and watch the world roll  
Spin the wheel and watch the world roll  
Spin the wheel and watch the world roll

(Second Verse):

And have you seen the one inch lady  
Whose arms are longer than mine?  
If you see her, you tell her to call me here  
At the carnival of time  
Youâ€™ll be the first one in line  
At the carnival of time

(Repeat Chorus, Coda and Chorus):

As the carnival lights fade away  
Itâ€™s just a country mile away  
As the carnival lights fade away  
Itâ€™s just a country mile away

It's just a country mile away
