

# All The Money In The World

## Bellefire

[Kelly:]What can I do, what can I say to tell you

Everything I'm feeling

I never knew, love that was true

Until your heart showed me the meaning

[Ciara:]It's more than a miracle

Brighter than silver, more precious than gold

I want the whole world to know

And now that I found it, I won't let it go

[All:]All the money in the world

Couldn't buy this girl

No fancy cars, no diamonds or pearls

I've got everything I need

Right here with me

A heart to trust, and a reason to believe

No I wouldn't trade your love

For all the money in the world

[Tara:]Out on my own, searching alone

Until the day I looked in your eyes

Took me apart, opened my heart

So many things you made me realise

[Ciara:]Nothing else matters now

I don't hear the madness

I don't feel the pain

Your heart showed me how

That love can move mountains

Again and again

[All:]All the money in the world

Couldn't buy this girl

No fancy cars, no diamonds or pearls

I've got everything I need

Right here with me

A heart to trust, and a reason to believe

No I wouldn't trade your love

For all the money in the world

[Ciara:]Nothing else matters now

I don't hear the madness

I don't feel the pain

Your heart showed me how

That love can move mountains  
Again and again  
[All:]All the money in the world  
Couldn't buy this girl  
No fancy cars, no diamonds or pearls  
I've got everything I need  
Right here with me  
A heart to trust, and a reason to believe  
No I wouldn't trade your love  
For all the money in the world  
[Tara:]It's brighter than silver  
More precious than gold  
Something you feel in your heart and soul  
It's more than a miracle  
More than a dream  
Taken me places that I've never seen  
[All:]All the money in the world  
Couldn't buy this girl  
No fancy cars, no diamonds or pearls  
I've got everything I need  
Right here with me  
A heart to trust, and a reason to believe  
No I wouldn't trade your love  
For all the money in the world
