What I Said

Alien Crime Syndicate

That's not what I said,
Or if you think that's how I feel.
Whatever came in to your head
Now what I said
My lips are sealed

Well you can flip it, you can flip it
You can spin it around.
Never give a fuck about the way it sound.
That's not what I said
Whatever came in to your head.

I don't mind what kind you (?)
My sign should be the one that says.
That's not what I said
(That's not what I said)
That's not what I said now

That's not what I said
(?) all the (?) talking to.
That's not what I said
'cos what I said is what I do.

Well you can flip it, you can flip it
You can spin it around.
Never give a fuck about the way it sound.
That' s not what I said
Whatever came in to your head

I don't mind what kind you (?)
My sign should be the one that says
Satisfaction guaranteed
My sign should be the one that read

That's not what I said
(That's not what I said)
That's not what I said now
That's not what I said

What I said

What I said

[x3]
That's not what I said
(That's not what I said)
That's not what I said now

What I said
What I said
What I said
Now
