The Search Is Over

Stan Bush

I wake up at night and feel you next to me
Open my eyes and watch you sleep and touch your hand
I feel so alive, it's all comin' over me
I finally found out what it means to be a man
Chorus:
You're a lady, your light shines on me, my love
The search is over, I see all I ever wanted in your eyes
The search is over in my life
I used to be lost, wanderin' endlessly
I never knew life could be anything more than holdin' on
But you came along, it felt like a raging sea
You've changed my world, and given me strength to carry on
(chorus)
From the first moment I knew, 'cause this kind of dream can only come true, oh
(Solo)
(chorus)
