

# Time Flies

## Smokey Robinson

Break of day  
Why you coming so fast  
Go away  
I don't want to have to leave her yet Here we lay  
and we want it to last  
We'll take every extra second we can get Have you ever been involved  
doing something  
And you don't want it to stop  
You hope it's never done Like the old saying goes  
Everybody knows  
Time flies when you're having fun Father time  
won't you slow down tonight  
Mother Nature  
is taking her course You know I'm feeling more than alright  
And my lovin' baby  
You're the loving source Have you ever been involved  
doing something  
And you don't want it to stop  
You hope it's never done Like the old saying goes  
Everybody knows  
Time flies when you're having fun
