

# Little Fang

## Avey Tare's Slasher Flicks

You're something special  
Want you to know you are  
Your makers must have kissed in cosmic dust  
You're something special  
You've got to know its true  
Could have been anything but right, you're you  
You're something special  
You've got to shout it out  
If there are doubts then we will groove it out  
You're something special  
You are the little fang  
You keep on grinning  
And this world keeps nagging(Little Fang, Little Fang, Little Fang)  
And if ever starts to feel bad little fang (Little Fang, Little Fang)  
It's easy to explain 'cause this world's not tame  
(Little Fang, Little Fang, Little Fang)  
And if it ever starts to feel sad little fang (Little Fang, Little Fang)  
Remember that your gifts are your gain  
(Little Fang, Little Fang, Little Fang)  
And if it ever starts to pour down little fang (Little Fang, Little Fang)  
The melody sings what the words can't say  
Cause they might laugh and they might be scared

Of the wilder thing with the trikes in her hair with the spikes in her hair with the trikes in her hairHey Mrs.

Creepy Head  
Hey Mr. Fuzzy Face  
Go gnash your teeth again  
You're in the right placeYou're something special  
Full moon you'll have no doubt  
Just let the astral music root you out  
You're something special  
Don't hide your wolveen face  
You keep on creepin', let the night be scary  
You're something special  
We all will sing your name  
Embrace your darkness, never be ashamed  
You're something special  
To be a little fang  
You keep on spinning  
And this world keeps nag nag naggingAnd if ever starts to feel bad little fang

It's easy to explain 'cause this world's not tame  
And if it ever starts to feel sad little fang  
Remember that your gifts are your gain  
And if it ever starts to pour down little fang  
The melody sings what the words can't say  
Cause they might laugh and they might be scared

Of the wilder thing with the trikes in her hair with the spikes in her hair with the trikes in her hair You're always  
flashing your teeth
