

Don't Talk Back

Kasey Chambers

Well, it's half my heart and a little bit of soul
That makes me feel I've wanna ride this road
I wouldn't change it if I could And me and this road you know
We've got an understanding
It won't leave me at home and I am
Too tired to do just what I should And last night I asked if I could
Take comfort in the rosewood
The road said nothing at all Well, 'cause it don't talk back
Unless the wind blows hard
I drive it all night with the wheel on my car
It won't leave me running for the door And if the paint's still wet, I can just slow down
And it all goes away on the other side of town
And nothing is that easy anymore Well, the hurt won't leave with the sight of white line
But it eases up my pain for a while
The only habit that I keep And miles take time but the time is mine
And always moving suits me fine
I'll catch my breath when I sleep And after all that I've done
I'm not half what I'd hope that I'd become
There's still a long way to go Well, 'cause it don't talk back
Unless the wind blows hard
I drive it all night with the wheel on my car
It won't leave me running for the door And if the paint's still wet, I can just slow down
And it all goes away on the other side of town
And nothing is that easy anymore And last night I asked if I could
Take comfort in the rosewood
The road said nothing at all Well, 'cause it don't talk back
Unless the wind blows hard
I drive it all night with the wheel on my car
It won't leave me running for the door And if the paint's still wet, I can just slow down
And it all goes away on the other side of town
And nothing is that easy anymore Yeah, 'cause it don't talk back
Unless the wind blows hard
I drive it all night with the wheel on my car
It won't leave me running for the door And if the paint's still wet, I can just slow down
And it all goes away on the other side of town
And nothing is that easy anymore
