

# Deep Cuts the Knife

## Helix

Lately, all the nights are all the same  
Since you said goodbye  
I'm all alone, the only voice is my own Did you hear me? Are you near me?  
Did you know that I hurt this bad?  
Did you love me? Did you need me?  
Whole world just a dream I had This memory haunts me forever Better run for my life, hide from the light  
Dark is the night, deep cuts the knife  
No way I'll get away  
Memories here to stay, deep cuts the knife Lately, I see your face in everything I do  
Sleepless nights I lie in bed just thinkin' of you  
I can't pretend that I don't need you back again Did you love me? Did you need me?  
Well alright, but what's so wrong? This memory haunts me forever Better run for my life, hide from the light  
Dark is the night, deep cuts the knife  
No way, I'll get away  
Memories here to stay, deep cuts the knife I am your slave, got no defender  
You flash the blade  
I can't escape, I can't surrender Run for my life, hide from the light  
Dark is the night, deep cuts the knife  
No way, I'll get away  
Memories here to stay Better run for my life, hide from the light  
Dark is the night, deep cuts the knife  
No way, I'll get away  
Memories here to stay, deep cuts the knife Deep cuts, deep cuts the knife  
(Deep cuts the knife)  
Better run, better run for my life  
(Deep cuts the knife)  
Oh, deep cuts the knife  
(Deep cuts the knife) Oh, memories here to stay  
It won't go away  
Deep cuts the knife I am your slave
