

Show Me

Stereomud

When will I be home
Is what you want to know
But all I can say is
I don't know when
Can't see to find my way
It's killing me slowly
How will I be home
Is what you want to know
But all you can say is
You don't know when
Can't see to find my way
It's killing me slowly
Please don't forget me
I am out here trying to find you
Show me some kind of light
I can barely see it
Don't wanna think that it's hopeless
So show me some kind of light
I can barely see it
Don't wanna think I'm lost
Every time I left
It was so far away
No, I never thought
That it would be like this
Wish I could thank you
For the patience that you gave me
It's all I
I can do
So don't give up on me
Hope you know
It's your faith
That's guiding me
Please don't forget me
I am out here trying to find you
Show me some kind of light
I can barely see it
Don't wanna think that it's hopeless
So show me some kind of light
I can barely see it

Don't wanna think I'm lost
Please don't forget me
Show me some kind of light
I can barely see it
Don't wanna think that it's hopeless
So show me some kind of light
I can barely see it
Don't wanna think I'm lost
I'm lost
If I'm out here without your light
I will never find my way home
