One Family

Mark Mancina

I have so much anticipation
for the future generations
I think kids today are growing up smart
with open minds ands open hearts
we can do it !
we'll put our heads to it
and then we'll be
ONe family!
A world filled with racial stress
but it seems every year less and less
those old fashioned standards are going away
tomorrow will be a brighter day !
we can do it
we'll put our heads to it
and then we'll be
one family !
So if you agree and want to help
fisrt you must look inside yourself
because unity begins with just us two
then we'll watch it spread to all of you
we can do it
we'll put our heads to it
and then we'll be
one family !
