Sonata

æŸŠç§€é›ª

Sonata, my sonata
I hear your haunting theme
And I begin to dreamYou linger, my sonata
In every reverie
You bring your love to mePlease, play on
Make my dream love stay
When you're gone she fades awaySonata when I find her
Each tender note you play
Will be my serenadePlease, play on
Make my dream love stay
When you're gone she fades awaySonata when I find her
Each tender note you play
Will be my serenadeMy sonata
