Mortal Kombat

Afu-Ra

Perverted monks style

'99 style, know what I'm sayin'?

Comin' at cha, this how we doParaplegic, my fightin' stance, too strategic

No shadows on my kicks too much chi-horrific

To be specific, I'm comin' threw with Jiu-Jitsu

Bone crushin' bone breakin' as I get intoScorpion styles, with the speed of a cheetah

Hit your pressure points with light skills, I be

The blaster, iron palms is elemental

Combinations damagin' nations in the mentalCerebral cortex is obsolete

You'll die ten times if you try to test me

Taoist master, rhyme style disaster

Studied on the cliffs of mountains readin' scrollsHoldin' it down, iron shirt chi-gung

Apprentice in the temple with guang-jung-nim

I went through torture deadly styles I'm the author

Ingested metals, yeah they made me supernova

Triple spinnin' kicks, side kicks, and hook kicks

They come much iller, so you must be Masta KillaIt's Afu, change my style, change the weather

It's Afu, change your mind, just too clever

It's Afu, all the weak styles I sever

Combinin' two styles on the Mic with Masta KillaThe great ones have searched for the righteous data

To show and prove and master the separation of matter

And seein' through death, never loose conscious of self

Shed a shell keep it movin' factorSword swing it to the temple, mental state

Danger chamber, eighth yang slang, Wu-Tang

Train private soldiers in this rap game

Like that shanghai chinky eyed chick from BedstuyWang Chung from Lafayette, stuy versant and Malcolm X

Fifty seven park, it might spark, it's the heart

One blood cell, featurin' Masta Kill

After dark he goes, bust gone, trust none, touch one Young Chun, prodigal son, killa bees disease

Home grown, flown from over seas, city under siege

Ya eyes bleed, the weed got 'em red dread

Like spinnin' roundhouse kicks to the head, he deadIt's Afu, change my style, change the weather

It's Afu, change your mind, just too clever

It's Afu, all the weak styles I sever

Combinin' two styles on the Mic with Masta KillaIt's Afu, change my style, change the weather

It's Afu, change your mind, just too clever

It's Afu, all the weak styles I sever

Combinin' two styles on the Mic with Masta Killa
