

Bring Your Love

Zach Chance

51st floor Im looking down
at all of the bright lights over this town
Im in the city that never sleeps
And one of the many awake just like meI could come across as easy I'm sure
But every time you leave me I want moreSo baby bring your love to me
Baby bring your love to me
Baby bring you love to meBecause there is no one else
Who can save me from myselfI walk these streets all alone
Caught in the hustle between work and home
So many faces pass me by
And I am just waiting for the hint of your smileI could come across as easy I'm sure
But every time you leave me I want moreSo baby bring your love to me
Baby bring your love to me
Baby bring you love to meBecause there is no one else
Who can save me from myself
So baby bring your love
