

# Too Hot to Stop

Benjamin Orr

It's about time... you told me what you wanted  
it's about time... you showed me what was where  
there's a lot on the line... oh it's back to where we started  
it's about time... and maybe i don't care  
it's about time... counted back to zero  
there's a lot on the line... time to clean the air  
keep it in mind... oh it all goes out the window  
it's about time... well i can't see it but i know it's there  
Remember... it's too hot to stop  
remember... well, too hot to stop  
It's about time... you gotta face up the factor  
it's about time... cause it's been on my mind  
there's a lot on the line... if it's left to any question  
it's about time... well you can call it in anytime  
Remember... it's too hot to stop  
remember... too hot to stop  
You make it so hard gettin' through to ya  
it's not the time for throw away  
just like it's all something new to ya  
you can hang on or run away  
It's about time... you start to get the picture  
it's about time... you gotta take a look around  
keep it in mind... cause your almost over limit  
it's about time... and it's all about to come down  
it's about time... you gotta wake up - smell the coffee  
it's about time... you gotta open up your eyes  
there's a lot on the line... so tired of hearing sorry  
it's about time... cause a part of me loves surprise  
Remember... yeah, it's too hot to stop  
remember... too hot to stop  
Well, you make it so hard gettin' through to ya  
it's not the time for throw away  
just like it's all something new to ya  
you can hang on (hang on) or run away  
It's about time... you told me what you wanted  
it's about time... it's about time... yeah!  
keep it in mind... oh it's back to where we started  
it's about time... it's in your mind - about time  
Remember... it's too hot to stop

remember... too hot to stop  
remember... it's too hot to stop  
remember... too hot to stop  
remember.remember, yeah, it's too hot to stop  
remember... too hot to stop...  
remember... too hot to stop...  
remember... too hot to stop...
