Living In a Dream (Acoustic Version)

Finger Eleven

I was never the kind to be taking my time
Any place that's worth a damn
And today's another day
That I've gone and thrown away
And I don't care where it lands
'Cause I'm just thinking about usI've been living in a dream about you
And now I know you were
All I ever wanted on my mind
And if I never see my own reality
Well, I'm okay to leave it all behindI'll be gone for a time, tuning out for a while
It's gonna look like I'm not all there
I've decided that today seems alright to piss away
Ignore my empty stare
'Cause I'm just thinking about usI've been living in a dream about you
And now I know you were
All I ever wanted on my mind
And if I never see my own reality
Well, I'm okay to leave it all behindWhen I come down and look around
I can't believe the fantasy is gone like a memory
Out of my reach, fading out from me
You're fading out from me, yeahI've been living in a dream about you
And now I know you were
All I ever wanted on my mind
And if I never see my own reality
Well, I'm okay to leave it all behind
