

Generation Swine

Motley Crue

I don't care now what I do 'cause I am just a fool like you
Get my way now everyday
I take all I can get just like you, just like you
Back in ya face such a disgrace We're the generation swine A rat race from outer space
Gonna blow your mind
Gotta get away, gotta get away aggravation
Gotta blow my brains, gotta blow my brains We're the generation I want more, it's not enough
We get our thrills right from this stuff
So my mind's a sewage sump
It's smelling bad and out of luck
Just like you back in ya face, such a disgrace We're the generation swine Gimme no lip here comes my fist
I don't need it this time
Getting blown away, getting thrown away
Degeneration this here songs for you The doomed welcome my fools to the planet boom
Thinkin' that I'll grab my space
Gun leave this place right now for the zoom
Gimme some space get outta my face We're the generation swine Don't need your lip
Your ignorance, we're the generation
Always on the run new sensation
Wanna go insane, gonna go insane We're the generation swine
