

# The Corner

## Rodney Atkins

First time I left home  
Here's the words that my dad said to me  
    He said sit down son  
        Don't take curves  
        Doin' 90 miles an hour  
    Or you will end up upside down  
        If you really like her  
        Don't forget the flowers  
The first time and every time you take her out  
    I've been around the block  
    And I know what's 'round the corner  
        Choose your words wisely  
        Cause you can't take 'em back  
Once they've broken someone's heart  
    Just because your friend does  
        Doesn't mean you have to  
    It's what sets the two of you apart  
    I've been around the block  
And I know what's 'round the corner  
    Don't pretend to know it all  
    When you don't know a thing

    And know your way around it  
Before you throw your hat into the rain  
    And don't commit to somethin'  
        If you can't follow through  
And your past will always catch up with you  
    I've been around the block  
    And I know what's 'round the corner  
        Always call your mama  
        When you say you gonna  
    While she's still here for you to call  
    And don't forget the man upstairs  
        In your darkest hour  
He's a pick me up every time you fall  
    I've been around the block  
    And I know what's 'round the corner  
        I've been around the block  
    And I know what's 'round the corner

I'm in your corner  
I've been around the block  
Enough to know what's 'round the corner  
What's around the corner [x2]
