Wishing On You

Nobody's Angel

When you kiss me and whisper goodnight
I started feelin' the rest of my life
I can't believe that just from your lips
That I'm surrendered, I couldn't resistI make a wish, what else can I do?
Hope you feel me like I'm feelin' you
Oh baby and II wish I may, I wish I might have just one more kiss
That's what I wish tonight
If you make all my wishes come true
I'm wishin' on youCome to my window, I leave on the light
I just have to see you to kiss you goodnight
It feels like heaven when I look in your eyes
And when you touch me I shiver insideSo I'll make a wish, what else can I do?
And hope you need me like I'm needin' you
Oh baby and II wish I may, I wish I might have just one more kiss
That's what I wish tonight
If you make all my wishes come true
I'm wishin' on you, oh yeahI'll make a wish, what else can I do?
And I hope you feel me, do you feel me like I'm feelin' you?I wish I may, I wish I might have just one more kiss
That's what I wish tonight
If you make all my wishes come true
I'm wishin' on youI wish I may, I wish I might
Have a wish, I wish tonight
I wish I may, I wish I mightI wish I may, I wish I might
Have a wish, I wish tonight
I wish I may, I wish I might
