Best I Can Do

MisterWives

Used to know how to do
This without losing my cool
But you crept too much inside my head
Rolling over in my bed
Tangled up in what you said
Terrified this just might never endEasy on my tethered soul
Giving you all I got
But you're claiming it whole
It's the best I can do
Nothing is ever good enough for you
Easy on my tired eyes
They've been up all night
Cause my mind is tied
It's the best I can do
Nothing is ever good enough for youChasing the days away
Back and forth, this game we play
It's sickening, but we can not quit
How did we get so far down
Run ourselves into the ground
Pull us up for air, but we still drownEasy on my tethered soul
Giving you all I got
But you're claiming it whole
It's the best I can do
Nothing is ever good enough for you
Easy on my tired eyes
They've been up all night
Cause my mind is tied
It's the best I can do
Nothing is ever good enough for youI am down on my knees
Begging for release
Can't continue like this, no
So could you please
Change your eyes to see
This is no way to be, no
I am down on my knees
Begging for release
Can't continue like this, no
So could you please
Change your eyes to see

This is no way, no way, no way to beEasy on my tethered soul
Giving you all I got
But you're claiming it whole
It's the best I can do
Nothing is ever good enough for you
Easy on my tired eyes
They've been up all night
Cause my mind is tied
It's the best I can do
Nothing is ever good enough for you
