

# Someone To Get There

## 2 Unlimited

Time is an open book, we share our dreams together  
And we will be who we want to be wherever  
Life is a mystery, the world can be your savior  
But let love be your gravity forever  
I'll take you to an endless dream  
No matter how it all may seem  
I know we'll find a way, never say never  
We all need someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
We all need someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
Love can take us anywhere  
Nothing can stop us now, we're strong when we're together  
And every step brings us closer now, forever  
I'll take you to an endless dream, no matter how it all may seem  
I know we'll find a way, never say never  
We all need someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
We all need someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
Love can take us anywhere  
  
We all need someone to get there  
We can see love can take us anywhere  
We all need someone to get there  
We can see love can take us anywhere  
We all need someone to get there  
We can see love can take us anywhere  
We all need someone to get there  
We can see love can take us anywhere  
Oh, yeah  
We all need someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
We all need someone to get there

If you just dare, you can count on me  
Someone to get there, baby  
Love can take us anywhere  
Someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
Someone, somewhere, somehow  
We all need someone to get there  
If you just dare, you can count on me  
Someone to get there, baby  
Love can take us anywhere
